

One system for the whole school.

A flat price per school, with no student limit.

Attendance, grades and report cards, exams, admissions, a parent portal, finance, and payroll in one app built for Indonesian schools, from primary to senior high and vocational schools, and for foundations.

What schools struggle with

Teachers buried in admin

Attendance, grade sheets, report cards, and letters are redone on paper and spreadsheets.

Data spread across many apps

The same student data is typed in again for fees, attendance, exams, and the school website.

Schools compete for students

In the 2025 admissions round in Sukabumi, only 157 junior high graduates were left for 25 private vocational schools.

What Arkantara includes

Academics

- Timetables, substitutes
- Attendance per lesson
- Merdeka, K13, KTSP report cards
- Proctored online exams

Students and parents

- Parent portal
- Announcements, chat
- Student affairs
- QR student letters

Admissions

- School website
- Online admissions
- Selection tests
- Enrol accepted pupils

Finance and operations

- Fees and scholarships
- Payments via DOKU
- Savings, canteen, RKAS
- Payroll and payslips

Why Arkantara

Priced per school

Not per student. A growing school does not pay more.

Children's data stays protected

Each school's data is separate, with two-step sign-in, an audit log, and daily backups.

Follows the Indonesian curriculum

Merdeka, K13, and KTSP can run side by side, per level.

Easy for everyone

Indonesian and English, installable on phones as a web app.

Plans and pricing

Starter

6 modules

IDR 299,000 / month

IDR 2,990,000 per year

Master data, attendance, basic academics, announcements, calendar, basic reports

Professional

19 modules

IDR 799,000 / month

IDR 7,990,000 per year

Everything in Starter, plus timetables, report cards, exams, admissions, parent portal, chat, documents, student affairs, custom domain

Enterprise

29 modules

IDR 1,799,000 / month

IDR 17,990,000 per year

Everything in Professional, plus finance, payroll, canteen, library, inventory, transport, alumni, full audit

Every plan: no limit on students, users, or data · pay yearly and save 2 months · 14-day trial with every module · foundations with several schools get their own package.

Founding schools

The first five schools: free for 3 months, then 50% off for 12 months. In return, the school gives regular feedback and agrees to be a case study.
